BUSINESS & SUSTAINABILITY
2026-28

BROCHURE

Prof. (Dr.) Harpreet Kaur
Vice Chancellor, NLU Jodhpur

VICE CHANCELLOR'S MESSAGE

The National Law University Jodhpur, in collaboration with the Indian Institute of Sustainable Development, is launching a two-year Executive MBA in Business and Sustainability for working professionals. This program blends academic depth with practical application through blended learning, self-paced assessment, and on-campus sessions. It intends to provide learners with the skills and perspective needed to tackle current business challenges from a sustainability-oriented perspective.

The program highlights the University's dedication to cultivating responsible leaders and fostering innovation in a rapidly changing global market. Learners will gain interdisciplinary insights, industry exposure, and flexible learning options tailored to busy executives.

I wish all prospective candidates' success and look forward to their valuable contributions to sustainable business.

Dr. Srikanta K. Panigrahi
Director General, IISD, New Delhi

DIRECTOR GENERAL'S MESSAGE

At the Indian Institute of Sustainable Development, we are delighted to announce a landmark Joint Academic and Research Collaboration (JARC) with National Law University, Jodhpur. As the first initiative under this partnership, we are proud to jointly launch a carefully designed blended Executive MBA in Business and Sustainability. This forward-looking programme blends academic excellence with industry relevance, offering a contemporary curriculum aligned with emerging global business needs. Designed especially for working professionals, it combines flexibility with a powerful pedagogy that integrates strategic management, innovation, leadership, and sustainability practices. The programme aims to nurture future-ready leaders who can create lasting value while addressing environmental and social challenges. With sustainability at its core, this MBA empowers professionals to lead organisations towards responsible growth, resilience, and long-term prosperity. Together, we are shaping business leaders of tomorrow for a more sustainable world.

ABOUT NLU JODHPUR

National Law University Jodhpur is a public law school and one among the premier law universities, established under the National Law University, Jodhpur, Act, 1999, enacted by the Rajasthan State Legislature. The University was established for the advancement of learning, teaching, research and diffusion of knowledge in the field of law. The University is recognised by the Bar Council of India, as well as the University Grants Commission, under the Ministry of Education (MOE), under Section 12 (B) of the UGC Act, 1956, and is a Member of the Association of Indian Universities.

NLUJ adopts a multidisciplinary and holistic approach to legal education, offering: unique five-year integrated undergraduate programs; LL.M. programs in Corporate Laws, IPR Laws, International Trade Laws, Law & Technology, and Public Laws; MBA (Insurance); and PhD Programme. The University is supported by a diverse and accomplished faculty, including scholars educated at top Indian and global institutions, with research publications in renowned journals. Visiting scholars from leading global universities, such as Harvard and Max Planck contribute to its vibrant academic environment.

Dedicated to academic innovation and excellence, NLUJ strives to be a leading center of legal education and research in India, committed to producing highly skilled, ethical, and globally competent legal professionals.

ABOUT IISD, NEW DELHI

Indian Institute of Sustainable Development (IISD), New Delhi, is an independent public policy think tank and scientific research institute committed to fostering Social Justice, Environmental Sustainability, and the overall improvement of the lives and living of the common man. IISD emphasizes the empowerment of marginalized communities by promoting sustainable use of natural resources, such as energy, water, and biodiversity, through scientific research, grassroots innovations, and inclusive public engagement. IISD envisions a sustainable path that is inclusive and equitable. It collaborates extensively with international bodies like the United Nations, World Bank, Government Agencies, Academia, Research Institutes, the Private Sectors, and Civil Society Organizations. The institute leverages policy advisory, scientific consultancy, and social engagement to achieve its core objectives. In response to rapid technological advancement and globalization, IISD addresses emerging challenges such as growing inequality, unemployment, climate crises, and the depletion of natural resources. It advocates for disruptive platforms for governance reform, promoting transparency, public participation, and co-created responses to environmental and social crises, with a strong emphasis on sustainable development.

PROGRAMME DESCRIPTION

The Executive MBA in Business & Sustainability is a two-year post-graduate degree program designed for working professionals who aim to integrate sustainability principles into strategic business decision-making. The program emphasises the incorporation of Environmental, Social, and Governance (ESG) frameworks within corporate operations, enabling leaders to drive ethical, responsible, and future-oriented business models. It covers key areas, including sustainable finance, circular economy practices, green supply chain management, renewable energy strategies, and ESG reporting. By aligning business growth with global sustainability goals, this program equips executives to build long-term resilience, enhance their corporate reputation, and create lasting value for both organizations and society.

The two-year Executive MBA program consists of a rigorous focus on foundation and advanced courses in business and sustainability. The two years consist of four semesters, including one subject of research methodology in the second semester and one project in the fourth semester.

PROGRAMME OBJECTIVES

1. To help learners understand the fundamental concepts of business & sustainability.
2. To build an understanding of the interlinkages between business and sustainable development.
3. To develop learners' ability to make responsible and ethical business decisions that balance profit with social and environmental concerns.
4. To equip learners with leadership and management skills needed to drive sustainability initiatives in business organisations.
5. To encourage innovative thinking and analytical skills, and find practical solutions for the challenges in business & sustainability.
6. To prepare learners to work in a global business environment with awareness of environmental, social, and governance (ESG) issues.

PROGRAMME STRUCTURE

The Executive MBA in Business and Sustainability is designed as a two-year program for working professionals. The course is divided into four semesters, combining management subjects with specialised sustainability courses. The course shall be delivered through blended learning, self-paced assessments, and on-campus sessions. The program includes a project focused on real-world business & sustainability challenges. This structure ensures a balanced development of managerial skills and sustainable business leadership, along with an understanding of legal aspects in business and the environment. The sessions shall be taken on the weekend.
